Global Derivatives <http://www.global-derivatives.com/>
Info about financial engineering, derivatives and quantitative finance

Investment Performance Analysis <http://www.andreassteiner.net/performanceanalysis/index.php>
It's all about investment performance analysis, simple return calculations, risk, return attribution, etc. The best part is that there's a section that has downloadable spreadsheets and VBA code that you can just plug numbers into.

MatLab Central
<http://www.mathworks.com/matlabcentral/fileexchange/loadCategory.do?objectType=category&objectId=3>
It has links to several good shared MatLab files for financial modeling.
